Access and Dissemination Policy

Together with our publisher, Imprint Academic, we offer two options for our authors to access and disseminate their publications in Mind and Matter: the traditional access option and gold open access.

Traditional Option
This option is covered by our copyright transfer agreement, which all authors choosing this option must sign prior to publication. Under this model authors may self-archive their published articles on their own websites following an embargo period of 24 months after official publication. Prior versions of the article published on non-commercial pre-print servers can remain on these servers. The final published version, which is posted on our online publication platform Ingenta Connect and can be purchased from there, cannot be used for this purpose. Acknowledgment needs to be given to the final publication and a link should be inserted to the published article on Ingenta Connect.

Gold Open Access
For authors who seek to widely disseminate their work immediately upon publication, this can be achieved by paying a fee on a per article basis. In these instances the final article published in Mind and Matter can be archived in institutional or funding repositories and can be made publicly accessible immediately upon receipt of the fee. The article will also appear as open access on Ingenta Connect, so that readers do not need a subscription to view it there. If authors choose gold open access the copyright remains with them.

When authors receive the acceptance for publication of their work by the editors, they should notify the editors that they wish their article to be part of the gold open access program. Once the editors have this information, authors will be sent an invoice to be paid immediately. They will also receive a gold open access licensing agreement to sign and return along with the fee. This licensing agreement replaces the copyright form referred to under the traditional option. Once the fee is paid, the licensing agreement received, and the publication date is due, Imprint Academic will make the paper freely available on Ingenta Connect and send a final version of the article to its authors for publication on their institutional or funding repositories.

The one-off publication fee for publishing with gold open access is GBP 950.- (incl. VAT), which can be paid by credit card or bank transfer. Authors are responsible for any charges their payment may be associated with.
